CAREER SUMMARY

Proficient Full Stack Web Developer skilled in designing and developing dynamic web applications. Expertise in front-end (React, HTML, CSS, JavaScript) and back-end (Node.js, Express, MongoDB) technologies. Experienced in creating RESTful APIs and optimizing application performance. Strong collaborator in agile environments with cross-functional teams. Committed to continuous learning and staying ahead of industry trends.

TECHNICAL SKILLS

- **Frontend:** React, HTML5, CSS3, Bootstrap, JavaScript, J Query.
- **Backend:** Node.js, Express.js.
- **Version Control:** Git, GitHub.
- **Database:** MySQL, MongoDB, PostgreSQL.
- **Tools:** Postman, VS Code, Code sandbox.

STUDENT EXPERIENCE AND PROJECTS

Summer Internship Program: July 2024 - Aug 2024

- Participated in a college-sponsored summer internship program focused on full stack web development and data structures & algorithms.
- Developed and deploy a web application using the MERN stack, enhancing user experience and functionality.
- Collaborated with peers to implement RESTful APIs, ensuring efficient data communication between front-end and back-end systems.

Major Project

- **MERN eCommerce Website:** Developed a full-stack online shopping platform with React.js, Node.js, Express.js, and MongoDB. Features include user authentication, product management, payment integration, and responsive design.

Minor Project

- **Family Travel Tracker:** Web app to log countries and plan trips.
- **Games:** Tic Tac Toe, Two-Player Dice, and Stone Paper Scissors games with JavaScript.
- **Portfolio:** Created a personal website showcasing projects.
- **Currency Converter:** Utilized APIs for real-time currency conversion.
- **Tin dog Website:** Designed a dog dating site using Bootstrap.

EDUCATION

B tech -CSE, Babu banarasi das university – Luckow

- **8+ CGPA**
- **2021 - Current**
